Kratek opis

Husqvarna Power Pack BC1-UN is a robust yet lightweight and handy transportation box that includes two 36 V batteries and one fast charger. UN3480 certified, it ensures the safe transport of lithium-ion batteries, offering excellent thermal insulation and superior shock absorption with its integrated inlet. Ergonomic handles are placed on both front and top for easy handling. The well-thought-out design allows for the stacking of multiple boxes, and by adding the Husqvarna multi-adapter plate (sold separately), the box can also be connected to third-party case systems.
